

STCU mobile banking on your Android phone

Four steps to easy anywhere, anytime access to your STCU accounts

- 1. DO THIS FIRST: Register for mobile access.**
 - From your computer, visit www.stcu.org and log into online banking.
 - From the “Preferences” menu, select “Mobile.”
 - Check the “Yes, enable my User ID and password” box.
 - Click the “Mobile Authorizations” tab, enter a 4-digit mobile code, and click Submit.
- 2. On your Droid, visit us at STCU.mobi.**
 - Enter “stcu.mobi” in your Android’s browser and click “Go.”
 - On the “Mobile Login” screen, double-tap the screen to enlarge, if necessary.
 - Enter your online banking ID and password. Click “Go” or “Login.”
 - Use the links at the bottom of each screen to access various features.
- 3. Bookmark STCU.mobi.**
 - Enter “stcu.mobi” in your Android’s browser and click “Go.”
 - Click the star-banner icon next to the address bar, and click “Add bookmark...”
 - Enter a name for the bookmark (like “STCU mobile”) and click “OK.”
 - When you want to bank on your Android, open your browser, click the star-banner icon next to the address bar, and touch the “STCU mobile” link from the list.
- 4. Put STCU.mobi on your home screen.**
 - Make sure you’ve already bookmarked STCU mobile as described above.
 - Touch and hold down for a moment on an empty space on your Android’s home screen.
 - From the “Add to Home screen” menu that appears, choose “Shortcuts.”
 - Choose “Bookmark” from the “Select shortcut” menu, then touch the STCU mobile page.
 - When you want to bank on your Android, just touch the “STCU mobile” icon on your home screen.
